State of the Philippine Environment

First Philippine Environment Summit
February 9-11, 2016
SMX Convention Center
Mall of Asia, Pasay City
MANDATE

Protecting/Conserving our Natural Resources

Improving the Quality of the Environment

Enhancing the Resiliency of Communities
• Forest Protection / Total Logging Ban
• National Greening Program
• Protected Areas and Biodiversity Management
• Clean Air, Clean Water and Solid Waste Management
• Cadastral Survey and Land Management
• Mining Regulation
• Geo-hazard Assessment and Mapping
• Ecosystems Research
• Good Governance
Where were we (2010)?
Where are we now (2015)?
Forest Protection and Anti-Illlegal Logging
Total number of trees cut from natural forests (1960-2010) – 89,191,971 trees
Average number of trees harvested from natural forests per year (1960-2010) = 1,748,682 trees
AVERAGE NUMBER OF TREES CUT FROM THE NATURAL FORESTS (1960-2015)

* Annual Average from 1960-2010

Total number of trees cut from natural forests (1960-2010) – 89,191,971 trees
Average number of trees harvested from natural forests per year (1960-2010) = 1,748,682 trees
About 1,595,826 naturally growing trees were saved annually upon closure of the 19 logging concessions nationwide in 2011.
ANTI-ILLEGAL LOGGING TASK FORCE

RESOLUTION No. 2011-001

• Consistent with the “moratorium on the cutting and harvesting of timber in the natural and residual forests of the entire country,” all logging equipment, including but not limited to chainsaws, bulldozers, tractors, graders, trucks and other logging tools/implement, are hereby prohibited inside natural and residual forests. All logging equipment found inside natural and residual forests, after the period earlier prescribed by the DENR, shall be seized/confiscated by the Anti-Illlegal Logging Task Force;

Hon. JESSE M. ROBREDO
Secretary, DILG

Hon. VOLTAIRE T. GAZMIN
Secretary, DND

Atty. RAUL M. BACALZO, PhD
Chief, PNP

Gen. RICARDO A. DAVID, JR.
Chief of Staff, AFP

Hon. RAMON J. P. PAJE
Secretary, DENR
Chairman
Anti-Illlegal Logging (E.O. 23)

- Illegal Logging Hotspots 2010: 197
- Illegal Logging Hotspots 2015: 23

Reduced 88% Illegal Logging Hotspots
Confiscated 33,406,439 bd.ft of forest products
Intensified Bantay Gubat

Anti-Illlegal Logging (E.O. 23)
Anti-Illlegal Logging (E.O. 23)

Intensified Bantay Gubat

National Greening Program
National Greening Program

EXECUTIVE ORDER NO. 26

- Plant 1.5 billion seedlings in 1.5 million hectares of lands for a period of six years (2011 to 2016)

Brgy. Banban, Ayungon, Negros Oriental
(Mangium Plantation)
National Greening Program

ANNUAL REFORESTATION DATA (1960-2015)

- 113% more than the reforestation of the past 25 years
## National Greening Program

- Butuanon River in Cebu
Solid Waste Management

Closure of 440 open dumpsites and 181 controlled dumpsites

![Graph showing the number of open and controlled dumpsites from 2010 to 2015. The graph indicates a decrease in the number of open dumpsites from 790 in 2010 to 350 in 2015, and a decrease in controlled dumpsites from 384 in 2010 to 203 in 2015.](image)
Cadastral Survey and Land Management
Cadastral Survey and Land Management

• Completed all 1,634 cities/municipalities nationwide
Computerization of Land and Survey Records

Prior to 2010

0

NOT A PRIORITY

2010-June 2015

27.082 Million

Land and survey Records computerized

Representing 15.76% of 171,801,000 records
Mining Regulations
BEFORE

There are critical areas that are threatened by mining, such as the SAFDZs and TDAs.

AFTER

Establishment of “No-Go” Zones
- Placing 84% of the country’s land area closed to mining activities
BEFORE

A total of 339 MPSAs have been Approved, with only 2% of gross sale as Government Share

AFTER

Maintained a moratorium since 2010 in the issuance of Mineral Agreement.
**BEFORE**

Small-scale mining operations are undertaken indiscriminately in various locations, increasing their footprints and environmental impacts.

**AFTER**

Provided policy reforms in small-scale mining by confining operations in *Minahang Bayan*, banning the use of mercury and providing for a centralized processing system, among others.
BEFORE

Environmental protection measures are confined to the local regulatory regime.

AFTER

Required all operating metallic mines in 2015 to secure ISO Certification for Environmental Management System (ISO 14001) within a year.

Open pit rehabilitation

Mine monitoring
BEFORE

About **2,180** mining applications have covered the entire county, preventing other viable land uses in about 7 Million hectares of land.

AFTER

Implemented the cleansing of mining applications by maintaining the denial of 1,606 mining applications, and Reducing the total number of mining applications to 530 as of June 30, 2011 and maintaining the moratorium on these applications.

MAP SHOWING THE MAJOR CLUSTERS (in red dots) COVERED BY MINING APPLICATIONS (2010)
Geohazard Assessment and Mapping
Completed in 2014 the 1:10K Geohazard Map

BEFORE
A 1:50K scale geohazard map was available but does not go down to the barangay level.

AFTER
The 1:10K geohazard map provides details of landslide and flood hazards down to the barangay level.

Typhoon Yolanda Track

LEGEND:
- Flood Susceptibility Map
  - High Susceptibility to Flooding
  - Low to Moderate Susceptibility to Flooding

GUBAT, SORSOGON
Ecosystems Research and Development
**BEFORE**

Forest nurseries of all DENR Offices are dependent on commercial fertilizers to enhance growth of forest tree seedlings.

**AFTER**

Development of a plant growth booster from Mycorrhiza called Hi Q-VAM, a kind of fungus associated with plant roots.

- Hi Q-VAM increases the nutrient absorbing capacity and makes the plant resistant to stress, thereby increasing its survival capacity even when planted in mined-out and denuded areas.
BEFORE

Traditional way of seedling production which takes time and increases the price of seedlings

AFTER

ERDB utilized **Mechanized and Modernized Forest Nurseries** to produce 1M seedlings per day and reduce its price from 12 to 5 pesos each
• Establishment and operationalization of 5 Mechanized Nurseries (NCR, R2, R5, R7 & R13)
Good Governance
Good Governance

Anti-Illegal Logging

Filed 1,638 cases
Convicted 202 violators

Disposition of Confiscated Forest Products to DepED

- 146,471 School desks and furniture
- 389 Repaired school buildings
In 2013, 2 chinese nationals were convicted for illegal mining activities in Region X.
Good Governance

- **E-filing and Monitoring System** for Illegal Logging and Wildlife Cases
- **1,322 CCTV** operationalized in DENR offices nationwide
- **DENR online permitting and monitoring** (e.g. ECC, CNC, COC PCL, etc.)

Way Forward

• To help us define the Philippine Nationally Determined Contribution (NDC)
Way Forward

• To help us prevent backsliding
  – Heighten vigilance
  – Pursue legislation of important environmental policies (i.e. Total Logging Ban, “No-Go” zone, E.O. 79)
Thank You!
